

21 SCORING FOR MEN'S AND WOMEN'S SINGLES EVENTS

2017 WEST HANTS CLUB TENNIS HANDICAP

- This 21 scoring system applies to Singles only.
- Best of 3 "Sets" - first to 21 points (no 2 point differential required)
- Handicaps to be averaged out, i.e. +8 / +14 becomes 0 / +6 *
- Take turns serving – 4 points each (coin toss to determine who serves first)
- First server to serve 4 serves or less until the combined score is divisible by 4. In the example above* first server would have 2 serves. This will help when remembering when to change ends or who should be serving.
- Change ends after every 8 points (i.e. after both players have each served 4 points)
- Change ends at the end of each "set". The person who served first in the previous "set" should not serve first in the following set.
